WORK EXPERIENCE

Karooth IT [BD] Ltd - Dhaka, Bangladesh

Jr Software Engineer (Java)

Sept 2025 - Present

- Developed backend services using **Java, Spring Boot** for scalable enterprise applications.
- Worked on **GRS (Government Project)** to build complaint management and resolution workflows.
- Contributed to **SNSOP (World Bank funded project)** for social safety net operations.
- Integrated **Neurotechnology AFIS** for biometric fingerprint identification and verification.
- Designed REST APIs and implemented asynchronous processing using **RabbitMQ**.
- Optimized data search using **Elasticsearch** and improved performance with **Redis caching**.
- Managed storage using **MinIO** and containerized applications with **Docker**.
- Optimized database queries across **PostgreSQL, MySQL, MSSQL**.

PROJECTS

Portfolio - MD Raihan Shikder | 🐙 GitHub Link

Technologies: HTML5, Tailwind CSS, JavaScript

Aug 2025

- Smooth scrolling, animated skills, live project previews, and a Netlify-integrated contact form.
- Optimized for all devices with a responsive hamburger menu, lightweight animations, and accessibility-friendly design.

REMS - Real Estate Management System | 🐙 GitHub Link

Technologies: Java, Spring Boot, MongoDB

Jan 2025

- Developed a full-stack web system with Admin and User roles.
- Users can register, add property listing and manage data.
- Admin can view, edit, approve or delete properties and user accounts.

Tour Ostad - Tour Agency Website | 🐙 GitHub Link

Technologies: HTML5, CSS3, JavaScript

May 2025

- Developed a dynamic tour agency website.
- Featuring tour package listing, about agency and others.

Bechakena - E-commerce Application | 🐙 GitHub Link

Technologies: Java, JavaFX, MySQL

Jul 2023

- Developed a desktop-based e-commerce platform that supports both buyer and seller accounts.
- Enable listing, browsing, and purchasing features through JavaFX.
